

Abstract list

1. **Federico de Ponti**, VIB-UGent. "Spatially restricted and ontogenically distinct hepatic macrophages are required for tissue repair"
2. **Domien Vanneste**, ULiège. "MafB is a conserved transcriptional regulator of macrophage development and identity across tissues and species"
3. **Cecilia Iglesias Herrero**, KU Leuven. "Longitudinal single cell evaluation shows rapid but partial immune reconstitution through JAK inhibitor treatment in two STAT1 gain-of-function patients"
4. **Raf Van Campenhout**, VUB. "Nanobody-based pannexin1 channel inhibitors reduce inflammation in acute liver injury"
5. **Joran Degryse**, KU Leuven. "Antigenic Imprinting Dominates Humoral Responses to New Variants of SARS-CoV-2 in a Hamster Model of COVID-19"
6. **Céline Wesssa**, UAntwerp. "Recycling Research: How Past Data is Shaping the Future of Immunopsychiatry"
7. **Lara Kelchtermans**, KU Leuven. "Beyond neutralizing antibodies: CD4+ T cells drive protection in Sudan virus model"
8. **Amber Wouters**, KU Leuven. "An early or late second course of anti-mouse CD3 fails to enhance type 1 diabetes reversal in newly diabetic NOD mice"
9. **Jarne Beliën & Amber De Visscher**, KU Leuven. "Natural killer cell exhaustion and dysfunction as a hallmark of the inflammation in Still's disease"
10. **Lize Allonsius**, VIB-VUB. "Multiomics immune profiling of a patient-relevant orthotopic lung cancer model using SEPARATE-Seq"
11. **Lobna Oueslati**, ULiège. "Wobble tRNA modification shapes tumor associated neutrophils in metastatic breast cancer"
12. **Kiréna Mollers**, ULiège. "IL-5 promotes tissue eosinophil persistence through developmental effects but is not essential for lung recruitment and activation"
13. **Eva Wachtelaer**, UAntwerp. "Vulnerability and resilience for mental illness following viral infections in the NESDA deep-phenotyped longitudinal cohort"
14. **Solange Dejolier**, ULB. "PD-1 and CD27 signaling pathways regulate exhaustion and residency of liver CD8 T cells in an Eomes-dependent manner"
15. **Juliet Wilmot**, UCLouvain. "Mitochondrial nucleic acid sensing in inflammatory responses to respirable particles"
16. **Janne Wouters**, UAntwerp - ITG. "The importance of vaccination strategies targeting skin imprinting for arthropod-borne diseases"
17. **Camille Flas**, ULiège. "Assessing the effects of estrogenic and menopause treatments on the microenvironment in ER-negative cancers"
18. **Alexandra Vujkovic**, UAntwerp - ITG. "CD8 T cell subset repertoire analysis reveals enhanced HIV-specific effector memory repertoires"
19. **Hannah Stocks**, UAntwerp. "Development of human innate immune responses in a humanized mouse model expressing four human myelopoiesis transgenes"
20. **Tim Rietberg**, UAntwerp. "Dynamic Immune Dysregulation in Severe Mental Illness: Exaggerated Innate and Attenuated Adaptive Immune Responses Following SARS-CoV-2 Vaccination"
21. **Kübra Bekar**, ULiège. "Insights Into The Role Of Endothelial Extracellular Vesicles In Pre-Metastatic Niche Formation And Metastasis In Breast Cancer"
22. **Hanne Coenen**, UHasselt. "A shift in the distribution of IgD-CD27- double negative B cell subsets and their pro-inflammatory and mitochondrial characteristics in aging"
23. **Sina Karimi**, ULB. "Multi-Modal Immune Profiling Uncovers A Role For Type 2 Immunity In A Subset Of Idiopathic Hypereosinophilic Syndrome Patients"
24. **Eline Bernaerts**, KU Leuven. "MMP-9 deficiency decreases demyelination in cuprizone-induced demyelination model"
25. **Florian Van Horenbeke**, ULB. "Using 3D multicellular tumor spheroids for a better understanding of human Tumor-associated macrophages"
26. **Sara Vanbellingen**, VUB. "Complement activation induces immunogenic cell death in human melanoma cell lines"

Abstract list

27. **Els Van Nedervelde**, VUB. "Complement Dysregulation and Humoral Immunity Across the COVID-19 Severity Spectrum and Post-Vaccination"
28. **Lena Fonteyn**, UHasselt. "IL-15 as a potent cytokine for the ageing immune system"
29. **Thessa Laeremans**, VUB. "Proteasome inhibition induces latency reversal and augments NK cell-mediated killing by downregulating HLA-E"
30. **Sara Schuermans**, KU Leuven. "Clearance of lipids from necrotic areas following acute liver injury"
31. **Céleste Willems**, KU Leuven. "Understanding the role of lymphocytes in Usutu virus-induced encephalitis"
32. **Cynthia Gonzalez Munoz**, UHasselt. "Blockade of the CD6-CD6 Ligand interaction by Itolizumab in MS immunopathogenesis and BBB dysfunction"
33. **Yuchen Du**, KU Leuven. "Optimizing Shellfish Allergy Diagnosis: Comparing allo-BAT and MAT in IgE and Non-IgE Pathways"
34. **Moosa Rezwani**, ULB. "Human Breast Milk $\gamma\delta$ T cells Exhibit Unique Characteristics Compared to Blood Circulating Counterparts"
35. **Karen Jessica Stanley Joseph**, VIB-VUB. "Unravelling the remote impact of a tumour on circulating classical monocyte ontogeny"
36. **Jeanne Pauwels**, ULB. "Maternal Probiotic Supplementation Enhances Neonatal Immunity via IgG Transfer, Fc γ R-Dependent Innate Activation, and Cross-Presentation by cDC1s"
37. **Katrien Bomhals**, KU Leuven. "Profiling Early Cardiac Immune Responses to Pressure Overload by Spectral Flow Cytometry"
38. **Robin Van Everbroeck**, VIB-UGent. "Multiplexed *in vivo* perturbational omics approach to uncover the differentiation pathway of Kupffer cells"
39. **Paulien Verschueren**, KU Leuven. "The impact of Nitrogen Pollution on Birch Pollen Allergy: Insights from a Multi-Year cross-sectional study across Europe"
40. **Febe Boudry**, KU Leuven. "Mapping proteolytic changes in myelin-induced foamy macrophages"
41. **Lenny Coppens**, UAntwerp. "Persistent free Spike antigens correlate with chronic inflammatory markers in Post-COVID Syndrome"
42. **Lore Rosseels**, KU Leuven. "Glycolytic metabolism in skeletal progenitors regulates the transient immune response during early fracture healing"
43. **Emilia Bialek**, KU Leuven. "Evasins inhibit chemokine activity by affecting multiple chemokine proteoforms and preventing binding to GAGs"
44. **Emily Slowikowski**, KU Leuven. "A central role for CCR2 in monocyte recruitment and blood-brain barrier disruption during Usutu virus encephalitis"
45. **Julien Catherine**, ULB. "Multiomic immune profiling reveals key mechanisms accounting for TCR/CD3 loss in lymphoid-variant hypereosinophilic syndrome associated with CD3-CD4+ cells"
46. **Thomas Rouma**, UNamur/ULB. "Whole inactivate vaccine protect immunodeficient mice against pulmonary infection by hypervirulent *Acinetobacter baumannii*"
47. **Fabio Beretta**, KU Leuven. "Modulation of the chemokine system to prevent early hyperinflammation in severe influenza"
48. **An Hotterbeekx**, UAntwerp. "Host-specific competitive advantage of *Pseudomonas aeruginosa* in a humanized pneumonia model"
49. **Isoline Verdebout**, ULB. "A common genetic variation in hematopoietic stem cells regulates the development of human $\gamma\delta$ T cells"
50. **Liliana Sokol**, KU Leuven. "Key players in Blau Syndrome granulomas: A comprehensive study on macrophages and Langhans Giant Cells."
51. **Panagiotis Vitsos**, ULB. "Characterization of $\gamma\delta$ T cells in lung cancer patients"
